

CURRENT ISSUES ON TEIFI VALLEY TRAIL – September 2025

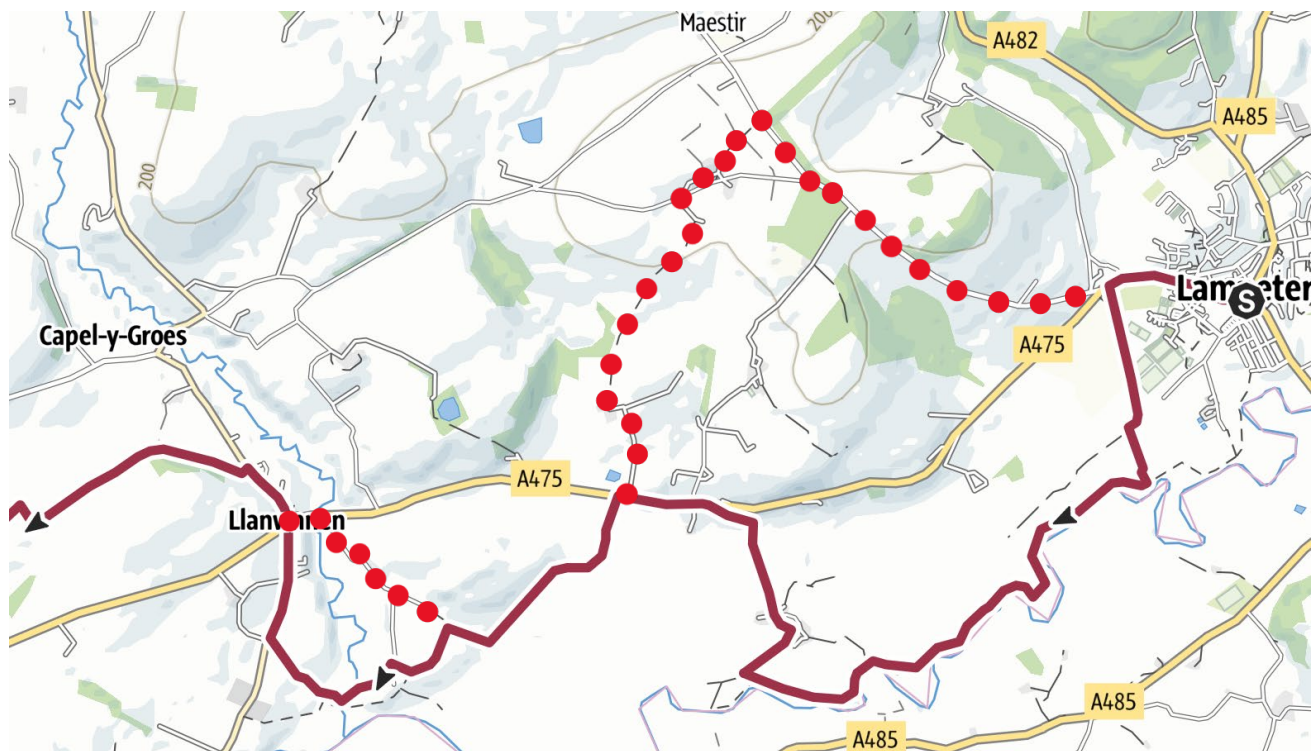

The whole route has not been fully waymarked on the ground yet but please use the digital waymarking which is available via the Outdoor Active walking app (see links below). There are also the following known issues:

DAY 04

Afon Teifi Flood Alternative between Lampeter and Llanwnnen

When the river is very high, the flood plains after Lampeter are not safe or pleasant to walk on. Turn right into Maestir Road at the fork on leaving Lampeter. Follow the road uphill, bearing off to the left after a 1 mile (1.6km). Just after the property of Tŷ Llwyd take the bridleway to the left and follow this downhill for about 1 mile (1.6 km), passing through Pentre-Shôn farm, to reach the A475 highway. Turn right and then turn left into a dead-end unclassified road. You have now rejoined the main route of the Teifi Valley Trail.

There is also a small additional deviation just before Llanwnnen – see map below.

OS Grid Ref: **SN 57071 48175**

DAY 06

Between Aberhoffnant Farm and Pont Allt-y-Cafan

Rerouting in progress away from Aberhoffnant Farm

OS Grid Ref: **SN 39417 40230**

Current recommendation – continue past Aberhoffnant Farm to Bercoed Farm where you can take the unmarked path on the right to rejoin the route. Ceredigion County Council are seeking to make this a permissive path with the help of Bercoed Uchaf.

DAY 07

Between Abercych and Manordeifi Church

Official rerouting being agreed between County Council and landowner but use the signposted route past Penparceithin Farm which is in place at the moment. Do not take the route through Penparceithin yard. Thank you.

OS Grid Ref: **SN 24309 41362**

DAY 07

Between Manordeifi Church and Llechryd Bridge

OS Grid Ref: **SN 22335 43203**

The TVT route is marked on our maps and has been waymarked on the ground but the OS footpath still goes through Castell Malgwyn Farm which is incorrect. Please do not take the route through the farmyard.

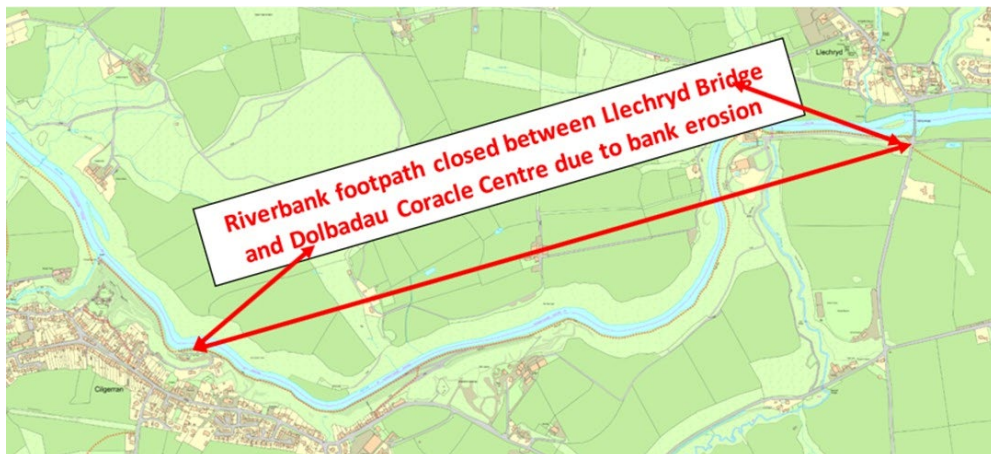

PLEASE DO NOT TAKE DOGS THROUGH THIS SECTION – THE CATTLE CAN BE VERY LIVELY.

Current recommendation – use the road from Llechryd Bridge to Manordeifi Church if you have dogs.

DAY 07

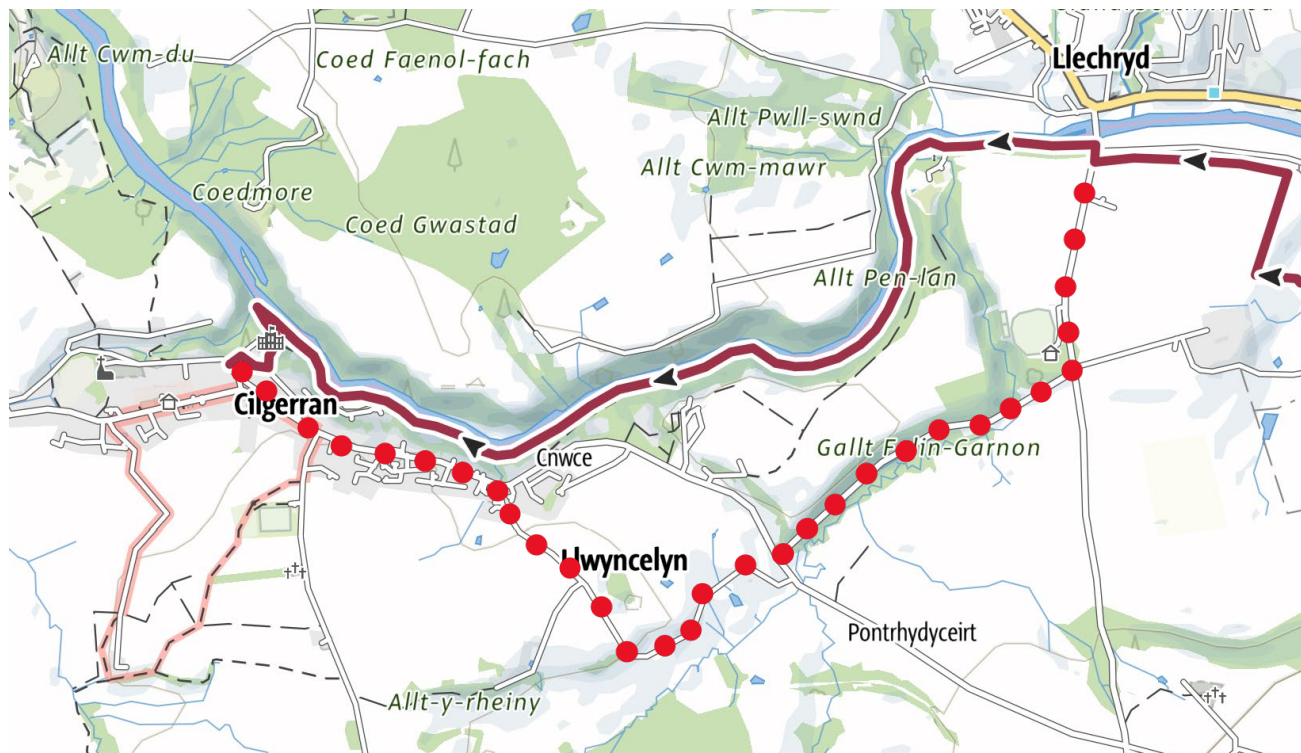

Teifi Gorge Footpath Closed

FOOTPATH CLOSURE: Due to erosion caused by heavy rain and a swollen river, the Riverbank Footpath beside the Teifi between Llechryd Bridge and Dolbadau Coracle Centre (picnic site with toilets) is unsafe to walk and is currently closed PP12/10 and PP60/1 but is due to be opened again once repair work has taken place.

OS Grid Ref: **SN 21789 43583**

Current recommendation – Take the road route, walking away from Llechryd Bridge (do not cross the bridge) to the first crossroads. Turn right and walk to the T-junction where you go straight across to join another road which soon does a sharp right turn to take you into Cilgerran. Here you turn right to go to the castle. If you wish to use the toilets then visit the picnic area by the river which you get to down the small road to the right of the shop. If you go down to the river, you rejoin the TVT route there. Otherwise, you can rejoin the route at the Castle where Day 07 ends.
